Performance Training in Football Refereeing Weekly Training Plan

Sun. 15th:

If you don't have a match appointment for the domestic league, use your free time for additional recovery, or to work on any fitness weaknesses you might have (e.g., aerobic endurance, strength, injury prevention,...). On our Referee P4P platform (<https://app.perception4perfection.eu/>), there are also 3 different match simulation exercises in case you are a VAR or 4th Official to compensate for not being physically involved in the game.

Alternatively, you may also consider alternative intermittent activities such as alpine/cross-country skiing or playing badminton, football, padel, squash, or tennis to benefit from complementary mental and physical stimulation if you are familiar with these leisure activities.

They go to the screen to watch an incident(15 sec, 1 replay only). After watching the incident, they go to the technical coach to report their decision and discuss the criteria

and considerations in 15 sec. After that, **Refs** continue walking to the starting position in 15 sec + 15 sec. One Set consists of 10 laps.

- 4' recovery

- Set 2: Same as set 1, however, start on the opposite side.

- Total distance: $120\text{m} + 5\text{m BW} + 5\text{m SW} = 130\text{m} \times 20 = 2.600\text{m}$

- This is how we did it during the winter course in Athens 2025

- Women: $105\text{m} + 5\text{m BW} + 5\text{m SW} = 115\text{m per run} \times 20 = 2.300\text{m}$

* Tip:

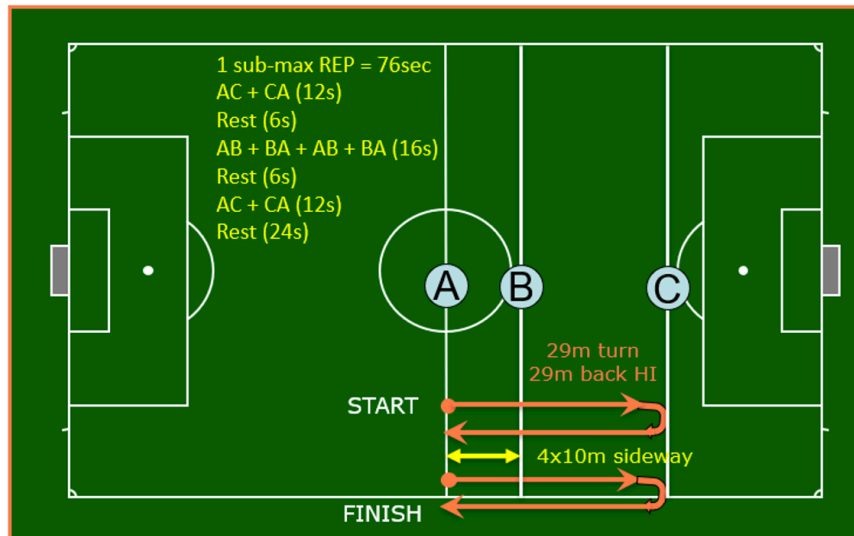

- In case there are no TV screens available, just use a laptop!

- For ARs, there is a new challenging exercise, the D-Q-D exercise: Your coaches have the audio file!

Sun. 22nd. If you don't have a match appointment for the domestic league, use your free time for additional recovery, or to work on any fitness weaknesses you might have (e.g., aerobic endurance, strength, injury prevention,...). On our Referee P4P platform (<https://app.perception4perfection.eu/>), there are also 3 different match simulation exercises in case you are a VAR or 4th Official to compensate for not being physically involved in the game.

Alternatively, you may also consider alternative intermittent activities such as alpine/cross-country skiing or playing badminton, football, padel, squash, or tennis to benefit from complementary mental and physical stimulation if you are familiar with these leisure activities.
